## Course Schedule Information

Course Code	020303
Semester	Summer Term
Day and Period	Wed3,Wed4
Course Name (Japanese)	ミクロ経済学
Room	Graduate School of/School of Letters, Law and Economics/Lecture Building Room42
Course Name	Microeconomics
Capacity	0
Course Numbering Code	02LAW_3E301,02INPP3E301
Credits	2.0
Student Year	2,3,4
Instructor	ISHISE Hirokazu
Course of Media Class	Not Applicable

※About Course of Media Class

"Course of Media Class" are classes in which more than half of the classes are held in places other than classrooms by making advanced use of various media.

Undergraduate students can include up to 60 credits in media class course as requirements for graduation.

Even if this is not the case, we may hold classes using the media.

## Detailed Syllabus Information

Course Subtitle	Price theory
Language of the Course	Japanese
Type of Class	Lecture Subject
Course Objective	The purpose of this course is to study intermediate-level price theory.
Learning Goals	On the successful completion of the course, - students can handle the calculations needed for the intermediate price theory. - students can analyze the real world problems using the price theory.
Requirement / Prerequisite	- Calculus and Matrix Algebra - Introductory microeconomics
Class Plan	The following plan might be modified depending on the progress.  1st Utility, (quasi-) utility function, and risk attitude 2nd Utility maximization problem

	<p>3rd Indifference curve and Marginal rate of substitution  4th Demand curve, comparative analysis, price elasticity  5th Consumer's expenditure minimization problem and compensated demand  6th Production theory I  7th Production theory II  8th Partial equilibrium and surplus analysis I  9th Partial equilibrium and surplus analysis II  10th General equilibrium  11th Pareto efficiency, first fundamental theorem of welfare economics, second fundamental theorem of welfare economics, and the existence of equilibrium  12th Market failure and policy intervention: Monopoly  13th Market failure and policy intervention: Externality  14th Market failure and policy intervention: Public goods  15th Final exam</p>
<b>Independent Study Outside of Class</b>	(P)review lecture materials. Work on problem sets.
<b>Textbooks</b>	No required textbooks. The lecture notes and problem sets are distributed. I recommend you to obtain at least one of the textbooks in the references section. You may understand the material when you see two alternative ways of explanations.
<b>Reference</b>	<p>神取 道宏(2014)『ミクロ経済学のカ』日本評論社  神取 道宏(2018)『ミクロ経済学の技』日本評論社  レヴィット他(2017)『レヴィット ミクロ経済学 基礎編』東洋経済新報社  レヴィット他(2018)『レヴィット ミクロ経済学 発展編』東洋経済新報社  奥野正寛(2008)『ミクロ経済学』東京大学出版会  奥野他(2018)『ミクロ経済学演習 第2版』東京大学出版会  Varian (2019) "Intermediate Microeconomics" WW Norton and Co.  尾山・安田他(2013)『改訂版 経済学で出る数学』日本評論社</p>
<b>Grading Policy</b>	Final exam (64%) and two quizzes (18%, each). If you miss one of the two quizzes with a valid (as final exam absence), the score for the other quiz is double counted. Please report the reason for the absence by 24 hours after the end of the quiz.
<b>Attendance and Student Conduct Policy*</b>	Attendance and submission of the problem sets are not included in the grading scores. But I strongly encourage you to actively participate the classes and submit the problems.
<b>Special Note</b>	<p>This lecture will be conducted in-person but livestreamed. We use CLE, Blackboard Collaborate Ultra (BCU), Loilo Note School (<a href="https://n.loilo.tv/en/">https://n.loilo.tv/en/</a>), CommentScreen (<a href="https://commentscreen.com">https://commentscreen.com</a>). The class will be recorded and published on CLE, but I strongly recommended that you take it in real time if you are taking the course online.</p> <p>Lecture slides and problem sets are distributed in advance using CLE. Read the slides before the lecture.</p> <p>Each lecture proceeds as follows. In the first 15 minutes, I will explain the important points of the problems assigned the previous class. Next, I will briefly explain the slides for about 30 minutes. Use the comment screen to ask questions or any comments. Then specify the number of exercises to be submitted. If you are taking the course in real time, do the practice questions and submit them through Loilo after the end of the lecture time. Submissions will be accepted even after the end of lecture time as long as it is within the same day. After that, the lecturer or TA will correct the problem according to the problem and return it from Loilo.</p> <p>When conducting a quiz, a notice will be given at least one week in advance. Quizzes need to be submitted using Loilo as practice problems, but for quizzes, there is a strict deadline. If real-time attendance is not possible in the quiz day, please email at least 24 hours before the quiz starts.</p> <p>Due to the nature of the content, many of the exercises use algebra and/or graphs, and that's why we use Loilo, instead of CLE. If you do not have a pen input device, I recommend that you write with pencil and paper, take a photo, and submit.</p> <p>How to use Loilo and CommentScreen will be posted in CLE.</p> <p>Any student with a disability who needs special accommodations, please inform the office in your department well in advance before the beginning of the semester and get in contact with the instructor as early in the semester as possible, so that we can discuss your specific needs.</p>
<b>Office Hour</b>	

Course conducted by instructors with practical experience
